

## **PLANNER**

### **JOB DESCRIPTION**

E2M produces highly technological mechatronic products for the worldwide simulation and test industry. The best-known products are motion systems for pilot training simulators. Because of the strong growth of our production, E2M is looking for a planner. The main responsibility of the planner is to make sure that the production process can function uninterrupted. This is achieved mainly by ensuring that all parts are purchased and checked, and all obscurities are resolved before production starts. Additionally this function requires the administrative processing of the logistic steps of the purchasing and production process.

### **JOB REQUIREMENTS**

- Bachelor or Master degree.
- Experience: Planner in a comparable production environment.
- Precise.
- Flexible.
- Can work in a team.
- Can work independently and task driven.

### **E2M OFFERS**

- An open, modern working environment, using short communication lines.
- Possibilities for growth in responsibilities.
- Possibilities for courses and personal development.
- Good salary conditions.
- International working environment.
- Working with interesting high tech products.

The monthly salary depends on the function and your working experience. Because of the strong growth of E2M, there will be plenty of possibilities for personal development.

If you think this job is for you, please send your resume and motivation letter to [jobs@e2mtechnologies.eu](mailto:jobs@e2mtechnologies.eu).
